SUSTAINABILITY MANUAL

MARCH 2026

REPUBLIC OF TURKIYE

FOUNDATION OF THE REPUBLIC OF Türkiye

After the National War of Independence, which started on May 19, 1919, the First Grand National Assembly of Turkey convened on April 23, 1920, under the leadership of Mustafa Kemal Atatürk.

With the adoption of the first constitution on January 20, 1921, "Sovereignty belongs to the nation unconditionally. "Executive and legislative authority is concentrated in the Turkish Grand National Assembly on behalf of the Turkish nation."

On the first anniversary of the opening of the Turkish Grand National Assembly on April 23, 1921, April 23 was declared a national holiday with Law No. 112.

The Republic was declared on October 29, 1923.

MUSTAFA KEMAL ATATÜRK

(1881-1938)

ATATÜRK, FOUNDER AND FIRST PRESIDENT OF THE REPUBLIC OF TURKIYE

He was born in Thessaloniki in 1881. His mother is Zübeyde Hanım and his father is Ali Rıza Efendi. He went to the Mahalle School, Şemsi Efendi School, Thessaloniki Civil Junior High School, Thessaloniki Military Junior High School, Thessaloniki Military High School, the Military Academy and the Military Academy, respectively. While he was studying at the Military Middle School in 1893, "Kemal" was added to his name by his mathematics teacher and he took the name Mustafa Kemal. When the Ottoman Empire was defeated in World War I, the Armistice of Mudros was signed. Following the start of the occupation of the homeland in accordance with this agreement, Mustafa Kemal went to Samsun on May 19, 1919 and started the national struggle. Mustafa Kemal was elected as the President of the Parliament and Government with the opening of the Turkish Grand National Assembly on 23 April 1920. After winning the Battle of Sakarya, he was honored with the title of Gazi and the rank of Marshal. Mustafa Kemal became the first President of the Republic of Turkey with the proclamation of the republic on October 29, 1923.

LE MORAL APART OTEL

Le Moral Apart Hotel has adopted the mission of growing in the service sector, establishing a lasting presence in the sector, and providing added value and employment to our country and sector... With our goal of 100% Customer Satisfaction; • We believe in the value of acquiring loyal guests and view the friendship between us and our guests as a long-term one. • We think from our guests' perspective and strive to produce solutions that meet their needs and demands. • We determine our business principles and goals with the awareness that tourism is another name for the service sector, and we are proud to serve our guests with this sensitivity. Vision: Becoming a reliable brand domestically and internationally, maintaining healthy growth and development in our sector, and diversifying within a holistic framework are the advanced goals of our hotel. Mission: Since its establishment, our hotel has been committed to providing impeccable service to our guests by utilizing our professional human resources, technology, and knowledge in the most effective and efficient way within the framework of total quality management; providing employment and income to the people of our country; continuously contributing to the development of Turkish tourism and the hotel industry; making our hotel knowledge and experience synonymous with our brand image; implementing a management style that values people and education; and showcasing traditional Turkish hospitality at international standards.

LE MORAL APART OTEL

OUR QUALITY, ENVIRONMENT AND FOOD SAFETY POLICY

Le Moral Apart Otel aims to be one of the first preferred hotels in its region with its continuous in-service training and the different perspective it brings to hotel management. While achieving our goal, our first priority is to take environmental issues into account, reduce negative impacts on the environment, and raise environmental awareness by using resources carefully. In line with these objectives, our guest-oriented service approach, which we have created by constantly improving our processes and systems according to the requirements of the age, with the leadership and responsibility of the top management, with the voluntary participation of all our employees, has become established as a philosophy.

As a result, we based all our activities on the following principles;

- To be responsible for quality together with all our managers and employees
- Working in compliance with legal and regulatory requirements- Continuously monitoring our control points that we have determined to realize safe food production.
- Relying on the support and productivity of our employees
- To ensure access to contemporary quality values and customer satisfaction at every level of service provided
- Acting according to the principle of "continuous improvement" in all work carried out- Increasing our skills and quality awareness through training
- To increase family awareness by considering the happiness of our employees- Organizing environmental activities, participating in activities, and inviting our guests to our work.
- Evaluating the performance of our suppliers and communicating with them in order to ensure the continuity of our product quality.
- To respect and support society and the environment for Sustainable Tourism.

General Manager

V

CHILD RIGHTS POLICY

- As the Le Moral Apart Otel family, with the awareness and responsibility of being a well-established organization in tourism, to accept all our customers, including children, as guests, to adopt the principle of providing services by blending national and international values, fully fulfilling the requirements of human rights and children's rights,
- To act in accordance with the fact that the benefit of children is more important and prioritized than any other benefit, and to carry out continuous improvement studies in order to ensure the continuity of the system,
- To accept that all children are entitled individuals,
- - The right to life and development
- - The rights to protection
- - Participation rights
- - The right to prevent discrimination
- To act together with all stakeholder institutions and organizations, as well as non-governmental organizations and local governments, at the point of implementation of this policy, so that it is adopted and lived in all areas of life,
- For this reason, giving importance to education and continuous development in order to ensure that all our personnel are informed about children's rights,
- We undertake to take the necessary legal and administrative measures, to improve all necessary conditions and to ensure that children participate more effectively and happily in life within the framework of the Social State understanding included in the UN Convention on the Rights of the Child and our Constitution.

- Dim Stream 13,8 km
- Sapadere Canyon 46,7km
- Manavgat Waterfall 61,2 km
- Side Ancient City 64,1 km
- Aspendos Ancient Theater 93 km
- Antalya Castle 133 km

ALANYA CABLE CAR

ECOLOGICAL TRANSPORTATION

Alanya Cable Car offers "ecologically sensitive transportation" with its technology elegantly placed in nature. Great care is taken to protect the environment and consume natural resources economically at every stage of construction and operation. It contains all the advantages of ecological transportation vehicles. Designed to operate in all weather conditions, the Alanya Cable Car system can continue to operate uninterruptedly in conditions such as rain, wind and high temperature.

Transportation is provided by taking Alanya minibuses from the stops on the main street in front of our hotel.

DAMLATAŞ CAVE

DAMLATAŞ CAVE

Damlataş Cave was found in 1948 during a quarry for stone to be used in the construction of the port. The cave is on the west coast of the historical peninsula. The stalactites and stalagmites of the cave, located in semi-crystallized limestone, were formed over 15 thousand years. The cave was named "Damlataş" because of the drops of water that continue to drip from the stalactites. Damlataş Cave, a favorite of local and foreign tourists, is famous for its enchanting beauty as well as its air that is good for asthma patients. The weather of the cave does not change in summer or winter; temperature is 22 degrees Celsius, humidity is 95 percent, constant pressure is 760 mm. The air of the cave contains 71 percent nitrogen, 20.5 percent oxygen, 2.5 parts per ten thousand carbon dioxide and some radioactivity and ions. Entrance to the cave is paid. There is a small market around it and the beach in front of it.

Transportation is provided by taking Alanya minibuses from the stops on the main street in front of our hotel.

ALANYA RED TOWER

ALANYA RED TOWER

Red Tower, a unique example of 13th century medieval Mediterranean defense structures; It was built by the construction master Ebu Ali Reha el Kettani from Aleppo by the Seljuk ruler Alaaddin Keykubat I in order to protect the port, shipyard and Alanya Castle against attacks from the sea. There is a four-line construction inscription on the outer northern wall of the building, written in the name of Alaaddin Keykubat, 10 meters above the ground, stating "gratitude to God" and the date of construction as April 1226, and another construction inscription on the southern wall. Red Tower, which has an octagonal plan, has a complex plan inside, contrary to its simple exterior. Red Tower; It has five floors: ground floor, first floor, mezzanine floor, open floor and open terrace.

Transportation is provided by taking Alanya minibuses from the stops on the main street in front of our hotel.

ALANYA CASTLE

Alanya Castle is a castle that is one of the symbols of Alanya, the district of Antalya. It is located on a peninsula rising approximately 250 meters above the sea. The total length of its walls is 6.5 kilometers. The castle was built in the Alanya settlement, which was called Kandeleri in ancient times, during the Hellenistic period. The history of the castle, whose current historical fabric is a 13th-century Seljuk work, dates back to the Hellenistic period. The castle was built by the Seljuk Sultan Alaeddin Keykubat I, who took the city and rebuilt it in 1221.

Transportation is provided by taking Alanya minibuses from the stops on the main street in front of our hotel.

DİM STREAM

DİM STREAM

The river originating from the Taurus Mountains follows a course of approximately 60 kilometers. Its water is cold in summer and winter, making it an ideal place for those who want to escape the sweltering heat of the Mediterranean, especially in summer. There are many restaurants and tea gardens opening parallel to the road. These restaurants continue after the regulator, which is approximately 7-8 kilometers away from the main road. A common feature of the restaurants and picnic areas here is the tables thrown into the river. The upper parts of the river are used for rafting purposes.

Transportation is provided by taking Alanya minibuses from the stops on the main street in front of our hotel. Transportation is provided by getting off at the last stop and taking the buses that say Dimçayı.

SAPADERE CANYON

Located between the fierce Taurus Mountains, the canyon is surrounded by high mountains on three sides and is 750 meters long. Located 400 meters above sea level, the canyon is surrounded by karst rocks with an average width of 10-15 meters and a circumference of 150-200 meters. Since its water comes from the rocks of the Taurus Mountains, it is cold and has plenty of oxygen.

The canyon, which was opened in 2008, was built on steel construction with wooden platform walking paths for easy navigation, and some areas were protected with wire for security. The walk, which starts with a slight incline from the entrance of the canyon, becomes more enjoyable with 10-15 degree ramps from time to time.

Transportation is provided by taking Alanya minibuses from the stops on the main street in front of our hotel. Continue by taxi. Public transportation does not go to this area.

SİDE ANCIENT CITY

The ancient city of Side is one of the most important settlements in history, founded in the 7th century BC. This historical city, which belongs to the Pamphylia region, was the first empire of the Lydian Kingdom and remained under this reign for many years. The ancient city of Side, which later transitioned to the Persian Kingdom, passed to the King of Macedonia when Alexander the Great requested the region.

You can get there by taking Manavgat buses from the stops on the main street in front of our hotel, and by taking Side minibuses from the city center.

ASPENDOS ANCIENT THEATER

Aspendos is famous for having the best-preserved Roman Period theater not only in Anatolia but in the entire Mediterranean world. The city was founded on the hill plain near one of the largest rivers of the region, Köprüçay (Ancient Eurymedon). Today, theaters and waterways are mostly visited in Aspendos, which owes its transportation and development with the Mediterranean to the nearby river and therefore the fertile lands around it.

From the stops on the main street in front of our hotel, you can take Antalya buses to Serik and from there take minibuses to Aspendos.

MANAVGAT WATERFALL

Manavgat Waterfall

It is a waterfall located on the Manavgat River in the Manavgat district of Antalya. Although it pours from a low height, it flows over a wide area with a high flow rate.

You can take Antalya buses from the stops on the main street in front of our hotel and go to Manavgat.

ANTALYA KALEİÇİ

Antalya Kaleiçi is protected by two thick horseshoe-shaped walls. One of these rampart-shaped walls is in the seaside bay, the other is on the land side. In addition to these walls, there are also walls separating the various settlements from each other, and there is a tower approximately every fifty steps on the outer walls. Narrow streets within the walls extend along the wall from the port upwards. Yivli Minaret, Keyhüsrev Madrasa, Karatay Madrasa, İskele Mosque, Tekeli Mahmut Pasha Mosque are just some of the important historical monuments within the city walls.

You can take Antalya buses from the stops on the main street in front of our hotel and reach the Castle by Antalya city buses.

HADRIAN GATE

It is one of the best preserved historical buildings in Antalya. The building, which is a Roman work, was built in 130 AD in the name of Roman Emperor Hadrian. Over time, the city walls closed the outer part of the gate and the gate was not used for many years. Perhaps this is one of the reasons why the work has survived until today without being destroyed. The gate was unearthed after the ruins of the city walls were demolished. It is considered the most beautiful gate of Pamphylia. There are three dome-shaped openings at the top. It is made entirely of white marble, except for its columns. The carvings and relief decorations are very beautiful.

You can take Antalya buses from the stops on the main street in front of our hotel and reach the Castle by city buses.

HOW TO GET THERE?

ALANYA HARBOUR – RED TOWER

Take the Alanya buses that pass in front of our hotel and get off at the last stop. It is about a 15-minute walk away.

ALANYA CASTLE

You can reach the castle by bus from Alanya city center or by cable car from Damlataş. You can also walk 1 hour from Alanya city center to the castle.

MANAVGAT - SIDE

You can reach Manavgat and Side center in 1.5 hours by using public transportation passing through the main street in front of our hotel.

ANTALYA

You can reach Antalya city center in 2.5 hours by using public transportation passing through the main street in front of our hotel.

AIRPORT

Our hotel guests can reach Antalya airport in 2 hours with their own agency's transfer vehicles.

Our hotel guests can reach Gazipaşa airport in 60 minutes with their own agency's transfer vehicles.

ALANYUM

You can use public transport from the stops next to our hotel, first get off in Alanya city center, then get on the bus again and reach Alanyum shopping center.

*** Public transportation in residential areas is provided by Supervised City Minibuses for a fee or by city cards on Municipal Buses.

*** If they wish, our guests can benefit from taxi services at the taxi stands located near our hotel.

NEIGHBORHOOD MARKETS

TUESDAY PUBLIC MARKET

Every Tuesday, a vegetable, fruit, and textile market is held in Alanya's market hall.

ALANYA NEIGHBORHOOD MARKETS

You can get detailed information about other neighborhood markets in Alanya by scanning the QR code.

LOCAL RESTAURANT

Alanya'mıza özgü yöresel yemekleri tadabileceğiniz yöresel restoran için ESMA HANIM'IN YERİ'Nİ yada yerel esnaf lokantalarını tercih edebilirsiniz.

CULTURAL INFORMATION

TURKISH TEA

A type of black tea is produced in Turkey and grows along the Eastern Black Sea coast. This type of tea is also called "Turkish tea" among the public. It is brewed with powdered roasted black tea and served in unique small glasses known as "ince waist".

CULTURAL INFORMATION

TURKISH COFFEE

Turkish coffee is one of the oldest coffee preparation and cooking methods that has survived from the Ottoman Empire to the present day, which has an important place in Turkish culture. It has a unique identity and tradition with its unique taste, foam, smell and presentation style. It is the only type of coffee served with grounds.

As of 2013, Turkish coffee culture and tradition was recorded on the **UNESCO Representative List of the Intangible Cultural Heritage of Humanity** on behalf of our country.

CULTURAL INFORMATION

AYRAN

It is a type of drink obtained by adding water to yoghurt. It is one of the most common drinks belonging to Turkish cuisine.

Göktürks, who ruled between 552-745 AD, added water to yoghurt to reduce its sourness. Thus, ayran came into being by chance.

The word ayran was defined for the first time in history as "a drink obtained from milk" in the work Divan-ı Lügat-it Türk.

CULTURAL INFORMATION

GÖZLEME

"Gözleme" is a type of appetizer Turkish pastry prepared by filling thinly rolled dough with various filling ingredients and then baking it on a sheet metal over a wood fire.

"Közmen", which means bread cooked on embers during the Seljuk period, is one of the first expressions used to mean flatbread. Over time, due to the evolution of the spoken language and the changing local dialects, it has changed and taken the name gözleme.

CULTURAL INFORMATION

TURKISH BATH

There has been a bath culture in Anatolia since ancient times. Turks carried their bath traditions, which existed when they lived in Central Asia, to Anatolia, where they migrated. They placed their own traditions on the marble bath culture left by those who lived before them. Over time, baths became places where very special days were celebrated. For women, which continues even today, there are "bridal baths", "puerperal baths", "baby's forty baths", "votive baths", "mourning baths" and "groom's baths", "circumcision baths", "soldier baths" and "baths for men". Eid Hammam" continues to be up-to-date.

CULTURAL INFORMATION

HACIVAT KARAGÖZ

Karagöz and Hacivat is a shadow play performed on a screen with two-dimensional depictions, based on imitation and mutual conversation. Karagöz actor is called fictional, imaginary. Change the conversation in the game is done with head movements.

It is not known for certain whether these two characters actually lived or not, and if so, where and how they lived. What is told is based on rumors, because even if they really lived, they probably did not find it important enough to be included in the history books during the mentioned period.

CULTURAL AND NATURAL HERITAGE

CARETTA CARETTA

Caretta caretta, which never come to land except to lay eggs, are in the category of endangered creatures. Loggerhead sea turtle (*Caretta caretta*) and green sea turtle (*Chelonia mydas*) species lay eggs on the Mediterranean coast of Türkiye.

According to the results of studies carried out in the Mediterranean from past to present, the most important nesting areas of the *Caretta caretta* species are **Türkiye** and Greece.

Tek kullanımlık plastik pipetleri kullanmayın.

Do not use!

Do not use disposable plastic straws.

Doğaya Saygı Duyun!

Daha az kâğıt kullanın. Kâğıtların iki tarafını da kullanın.

Respect nature!

use less paper. Use both sides of the paper.

Paylaşın!

Kullanmadığınız giysileri giysi toplama kutularına bırakın ya da kardeşleriyle paylaşın.

Share it!

leave unused clothes in the clothes collection boxes or share them with others.

ENERGY-SAVING

98% of our facility's lighting is made of LED lights. The goal is to have 100% LED lighting.

Electronic energy cards are used in all rooms.

We prefer highly energy efficient, environmentally friendly devices and technologies.

Motion-sensitive sensor illuminators are used in general areas and staff areas.

General areas are designed to take advantage of daylight for energy saving.

ENERGY-SAVING

Exterior lighting is controlled by timers.

Minibars are positioned away from heat sources to save energy.

LED televisions are used in our rooms.

The use of air conditioning devices is reduced by keeping the curtains of empty rooms closed in summer and open in winter.

Energy losses are minimized by performing periodic maintenance and cleaning of all electronic devices.

ENERGY-SAVING

We have 228 solar panels to benefit from solar energy. We provide 70% energy savings in the water heating system.

The tires of cold rooms, deep mills, and refrigerators are checked and worn out tires are replaced, preventing energy losses.

Dishwashers, washing machines and dryers should not be operated unless they are fully loaded.

Our energy consumption is recorded and monitored on a monthly and annual basis.

Our staff is given training on savings measures and our guests are informed about our savings practices.

WATER SAVING

There are water-saving aerators in all rooms and common areas.

All WCs use economical 6 and 3 litre dual flush systems.

By choosing shower cabins instead of bathtubs, water savings are achieved.

WATER SAVING

Our employees are trained on water conservation. Our guests are informed about our conservation practices.

Wastewater is connected to the sewer system in accordance with the discharge regulations.

There are warning signs for water saving on taps in all public areas.

There are warning signs for water saving on the taps in the production and personnel areas.

Our water consumption is monitored and recorded monthly and annually.

WASTE MANAGEMENT

We separate our waste at its source.

NO PLASTIC

To reduce paper consumption, we do our correspondence via e-mail and use double-sided papers.

We encourage our guests and employees to participate in recycling programs.

We reduce packaging waste by purchasing large packaged and concentrated products.

SOCIAL RESPONSIBILITY

If you would like to contribute to our nature and endangered species, you can donate by scanning the QR codes.
